### **MEET POLICY FOR HIGH SCHOOL SWIMMERS**

High School swimmers will be allowed to swim in meets, as long as they meet the following practice attendance requirements.

High School swimmers must make four (4) practices each week, at CVST, to be eligible to participate in the CVST/USA Swimming Meets, Trips, Camps, etc. They may come to the morning practice before school and on Saturdays. If the High School has morning practices in lieu of afternoon practice, or if High School Coaches allow swimmers to come to CVST practices instead of High School practices, the swimmer may then attend the evening practice at CVST. Swimmers may not attend an afternoon High School practice and then the evening CVST practice, as they will be tired and not get out of the practice what is needed, they also need this time to keep grades up.

Swimmers are responsible to maintain their 100% attendance (4 practices each week) up to the first day of the meet they have entered. If the attendance falls below 100%, the swimmer will not be permitted to swim in the meet and that swimmer will be responsible for all entry fees incurred by entering the meet.

The four practices per week is the minimum and all High School swimmers are encouraged to make as many CVST practices as possible.
